

## Práctica 4 – Listado de sensores

Se muestra una lista de sensores correspondientes al dispositivo donde se está ejecutando la aplicación.

### Lista de sensores

Nombre : {Sensor name="Goldfish 3-axis Accelerometer", vendor="The Android Open Source Project", version=1, type=1, maxRange=39.300007, resolution=2.480159E-4, power=3.0, minDelay=10000}

Nombre : {Sensor name="Goldfish 3-axis Gyroscope", vendor="The Android Open Source Project", version=1, type=4, maxRange=16.460001, resolution=0.001, power=3.0, minDelay=10000}

Nombre : {Sensor name="Goldfish 3-axis Magnetic field sensor", vendor="The Android Open Source Project", version=1, type=2, maxRange=2000.0, resolution=0.5, power=6.7, minDelay=10000}

Nombre : {Sensor name="Goldfish Orientation sensor", vendor="The Android Open Source Project", version=1, type=3, maxRange=360.0, resolution=1.0, power=9.7, minDelay=10000}

Nombre : {Sensor name="Goldfish Ambient Temperature sensor", vendor="The Android Open Source Project", version=1, type=13, maxRange=80.0, resolution=1.0, power=0.001, minDelay=0}

Nombre : {Sensor name="Goldfish Proximity sensor", vendor="The Android Open Source Project", version=1, type=8, maxRange=1.0, resolution=1.0, power=20.0, minDelay=0}

Nombre : {Sensor name="Goldfish Light sensor", vendor="The Android Open Source Project", version=1, type=5, maxRange=40000.0, resolution=1.0, power=20.0, minDelay=0}

Nombre : {Sensor name="Goldfish Pressure sensor", vendor="The Android Open Source Project", version=1,
